

What you should know before you register

What is ClinicTools?

ClinicTools is more than just Electronic Medical Record development system. ClinicTools is the pioneer in healthcare management system. It is developed for the following branches of healthcare:

Mental Health	Physician Offices	Home Health
<ul style="list-style-type: none"> Behavioral health organizations 	<ul style="list-style-type: none"> Medical Centers 	<ul style="list-style-type: none"> Home Health Agencies
<ul style="list-style-type: none"> Psychiatric clinics 	<ul style="list-style-type: none"> Private Practices 	<ul style="list-style-type: none"> Personal Care Agencies
<ul style="list-style-type: none"> Psychological Centers 	<ul style="list-style-type: none"> Community Medical Centers 	<ul style="list-style-type: none"> Residential Service Agencies

Why ClinicTools

ClinicTools® makes it easier for any healthcare providers to:

1. Create and edit patient health information (PHI) – Medical Record
2. Schedule patient appointment
3. Send appointment reminder to patients email address or mobile phone
4. Allow patients to use the Internet to check if they have appointment scheduled or not
5. Send error free prescription to pharmacies electronically
6. Send error free doctor’s order or test request to Laboratory, Diagnostic centers and even Home health agencies

What you should know before you register

7. View patient x-ray on PCs and laptop
8. Create employee file and manage employees hours worked and other activities from anywhere
9. Monitor employee productivity
10. Keep employee file (all the information collected prior to making offer of employment) and other records within reach at all times
11. Communicate and collaborate with other healthcare providers within your organization privately and securely
12. Find and correct documentation errors before they are labeled as deficiencies by regulatory agencies
13. Provide ongoing training and documentation assistance to clinical staff to minimize rejections
14. Bill for services rendered anywhere there is Internet access

Next Step

Try it and see for yourself! Registration is free for 90 days. During registration, you would be allowed to choose your type of healthcare organization and that is the module you are going to register into.

Do not answer yes to the question “**Do you have exempt permission?**” You can only answer yes if your organization does not have credit card, bank card and does not want to submit checking account information to make payment. You must first of all contact us at exempt@mednetservices.com, and if you are granted exemption by ClinicTools, Inc use that to complete registration. Until then, the answer should be **No**.

Who can use the system?

It is better to allow all your employees to use the system. Do not hesitate to pick the total number of employees (Administrative and Clinical) including those in Human Resources and Management. This is the only way to see the benefits and advantages of such a powerful system as this.

If you are a non-profit organization with an exempt status from the IRS, you would be given the opportunity to pick a lower rate after your free 90 days expired.

Technical Support and Training

ClinicTools is developed to help you coordinate things; to make patient care effortless and worry-free; to put all necessary and important records (including employees' record) at your fingertips regardless of time and distance.

Any setup cost and staff training cost you paid during the trial period shall be fully refunded back to you once you agree to continue using the system. What this means is that we would setup the system and provide ongoing training of all your employees including clinical staff and management at no cost to you.
